

CHATHAM & CLARENDON GRAMMAR SCHOOL

Job Description

Job Title:	Teacher of Mathematics
Department:	Mathematics
Based:	Chatham & Clarendon Grammar School
Hours of Work	Full time
Grade:	MPS/UPS
Responsible to:	Head of Mathematics
Responsible for:	Class teaching

Overview of Job:

- We are seeking a passionate and well-qualified mathematician to join our dynamic and high-achieving department. With over 70 students opting to study Mathematics in Year 12, there is strong potential for the successful candidate, if suitably qualified, to contribute to our post-16 provision.
- This role presents an excellent opportunity for an experienced teacher looking to further develop professionally and refine their classroom practice, as well as for a newly qualified teacher seeking to begin their career within a well-established and supportive department.

The main responsibilities and tasks:

- You will be required to motivate and enthuse the students in their study of mathematics and share your passion for the subject whilst having high expectations of student achievement.
- You will plan well sequenced lessons and collaborate with colleagues to create teaching and assessment resources.
- You will keep records of student attainment and track their progress showing initiative when intervention is required whether for students lacking in progress or for the most able.

Other Attributes and Duties:

- Team player
- Have a collaborative approach to working with the department
- Having a calm demeanor and demonstrating patience when dealing with students
- Being able to work well under pressure
- Upholding school policies consistently with particular regard to behaviour and uniform.
- Having professional curiosity and a commitment to personal CPD
- To be a form tutor and undertake those duties enthusiastically.

To perform such duties as the Headteacher may reasonably require or that professionalism dictates.
